OSAO

- Vocational Qualification in Information and Communications Technology
  - Software Developer

#### 2022-2023

OSAO

- Preparatory Education for Vocational Training

#### 2007-2011

GAZI UNIVERSITY, TURKEY

- Bachelor's Degree in Law

### SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

### PROFILE

#### Professional Competence

I studied and worked in the field of law in Turkey. I hope to change my professional field. I have become familiar with the basics of programming and have the motivation and enthusiasm to learn more about it persistently and to build a new profession and career for myself. I am a detail-oriented team player with strong organizational and interpersonal skills. I am able to successfully and accurately manage multiple projects simultaneously.

#### Programming Skills, ICT Competence

I have studied HTML, CSS, JavaScript, jQuery, and Bootstrap, C# at OSAO.

I became familiar with the Python programming language while working as a digital technician during a work trial at Business Oulu. At the same time, I was introduced to 3D printing and laser cutting. I have studied Python programming at the University of Helsinki Open University. There, I have done various exercises with Python, such as small programs for short surveys. I have also learned the basics of SQL programming and Azure principles during a four-week data analytics training provided by Loihde.

In addition, I have become acquainted with Scratch and Unity through Koodarit, where I both learned and assisted children in game programming.

#### Other skills required for programming and my personal abilities

In my work as a judge and researcher at the Supreme Court, I have honed and demonstrated my abilities in self-direction, problem-solving, analytical thinking, systematic approach, logic, responsibility, decision-making, as well as cooperation and communication skills.

### WORK EXPERIENCE

#### Work Trial

4/2025 - 6/2025

Kodarit, Koodikaverit Oy

- I taught children coding using various programming tools, such as Unity, Scratch, JavaScript, and Python.
- I worked as an assistant and supported children in completing programming tasks.
- During the internship, I learned a lot about teaching programming, interacting with children of different ages, and the versatile use of programming tools in education.

#### Work Trial

4/2023 - 6/2023

Diginikkari, Business Asema, Oulu

- Introduction to Python programming language. There, I have done various programming exercises with Python.
- I practiced 3D printing and laser cutting.

# LANGUAGES

## Legal Advisor for Patent Crime Cases

2018-2019

Yalciner Patent, Turkey

- Legal advice and guidance related to the investigation of patent crimes.
- The work requires knowledge of legislation and subject matter, leadership skills, analytical thinking, motivating and inspiring others, high-level initiative, and creativity in challenging tasks.

## Investigative Judge

2016-2017

4th Civil Chamber of the Supreme Court, Turkey

- Investigations of compensation claims related to civil law, such as compensation for physical or psychological injuries, and recommendations to the Supreme Court. Investigations were conducted through interviews with involved parties and data retrieval from information systems.
- The work requires skills in effective time management to meet strict deadlines, strong analytical and problem-solving abilities, excellent interpersonal skills, development of effective solutions for various challenging situations, passionate learning, commitment, and continuous skills development.

## Judge

2015-2016

Hendek Court, Turkey

- Judge in civil law matters, such as compensation claims, divorces, real estate issues, debts, etc.
- I reviewed legal documents related to preliminary investigations, previous memoranda, and decisions.
- I prepared written justifications for legal decisions, made rulings, and informed the parties involved.
- The work requires skills in effective time management to meet strict deadlines, strong analytical and problem-solving abilities, excellent interpersonal skills, and the development of effective solutions for various challenging situations.

## Judge Trainee

2013-2015

Ankara Court, Turkey

- Included all judicial tasks, such as criminal law, civil law, etc. I worked at various times of the day.
- The work requires skills in analytical thinking, organizational skills, interpersonal skills, attention to detail, and more.

## Research Assistant

2012-2013

Afyon Kocatepe University Faculty of Law, Turkey

- Assisted legal researchers by performing statistical, qualitative, and quantitative analyses.
- Collected, verified, processed, corrected, and visualized research data to present results verbally and through charts, figures, and trends in research reports.
- The work requires skills in research methods, analytical thinking, accuracy, self-direction, and knowledge of legislation.
